Continuing study of [REDACTED] has revealed that new activity has taken place immediately downrange (east) from SAM Launch Area A in the SAM Launch Complex. Three loop roads, two of which were mentioned in OAK-Part I for Mission [REDACTED] and several unidentified objects have been added downrange from this SA-2 site, outside the fenced area.

These loop roads appear to service a launch or launch-associated facility. Although some evidence of ground scars in this area was noted on Missions [REDACTED] the loop roads and the unidentified objects were not constructed until after [REDACTED]
